Brocade meldt dat het partner is geworden van CERN Openlab, de publiek-private samenwerking die SDN-toepassingen ontwikkelt voor het kernfysica-instituut in Genève. De Large Hadron Collider (LHC) genereert een uitzonderlijk grote hoeveelheid data die moet worden doorgeleid naar onderzoekers over de hele wereld. Andere private partners van CERN zijn Huawei, Intel, Oracle, Siemens, Cisco, Rackspace, Seagate, IDT en Yandex.
