Openlab summer students' lightning talks 1 ^[1]

Date:

Friday, 11 August, 2017 - 13:30 to 15:30

Location:

31-3-004 ^[2]

During this first (out of two) fast-paced lightning talk session, half of the CERN openlab summer students will present the projects they are working on as part of their CERN experience. It is an excellent opportunity for the students to show what they have been working on so far and for everybody else to get information on many interesting activities being carried out on various technologies, from cloud computing to monitoring tools and much more.
