

Oracle STREAMS

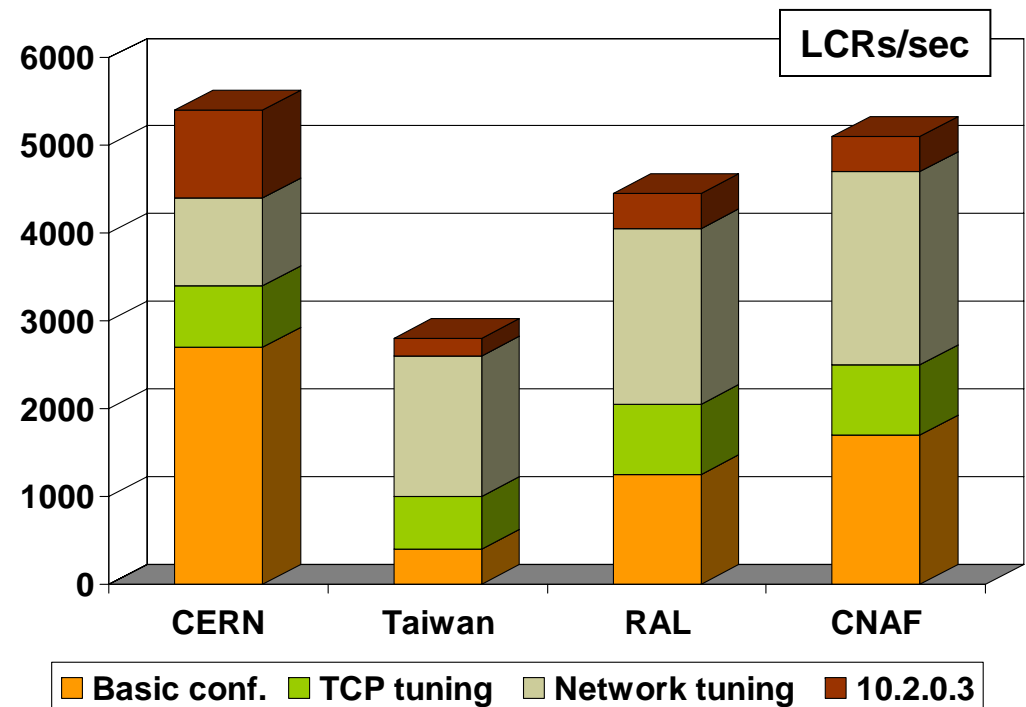

for database replication in LCG

update

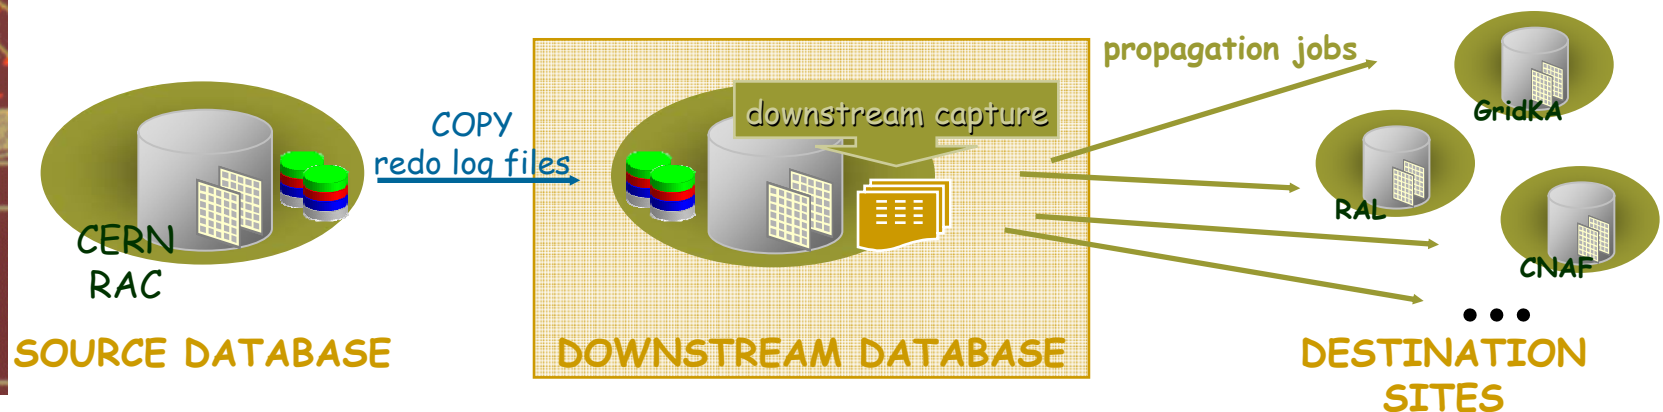

Eva Dafonte Pérez

- Streams Optimizations
- Downstream Capture
- Sites status
- Streams monitoring
- Open Issues

- TCP tuning
 - need to adjust system max TCP buffer
- Network tuning
 - `DEFAULT_SDU_SIZE=32767` and `RECV_BUF_SIZE` and `SEND_BUF_SIZE = 3 * Bandwidth Delay Product`
 - Reduce the Oracle Streams acknowledgements
- Oracle 10.2.0.3

- Capture process runs on a different database
- Redo log files are copied from source to downstream
- Archived-Log downstream capture
 - waits for redo data to be archived
- Real-Time downstream capture
 - LGWR records data in the **online** redo log at the source db
 - redo data is stored in the standby redo log at the destination db

- setup for ATLAS (Real-Time)
 - using 5 destination sites (RAL, CNAF, GridKA, Taiwan, IN2P3)
- setup for LHCb (Archived-Log)
 - using 5 destination sites (RAL, CNAF, GridKA, SARA, IN2P3)
- Tests interrupted last week after firewall intervention
 - new firewall
 - propagation throughput limited to 28 LCRs per sec
 - related to the "sqlnet inspect" module
 - Bug in the new firewall software?

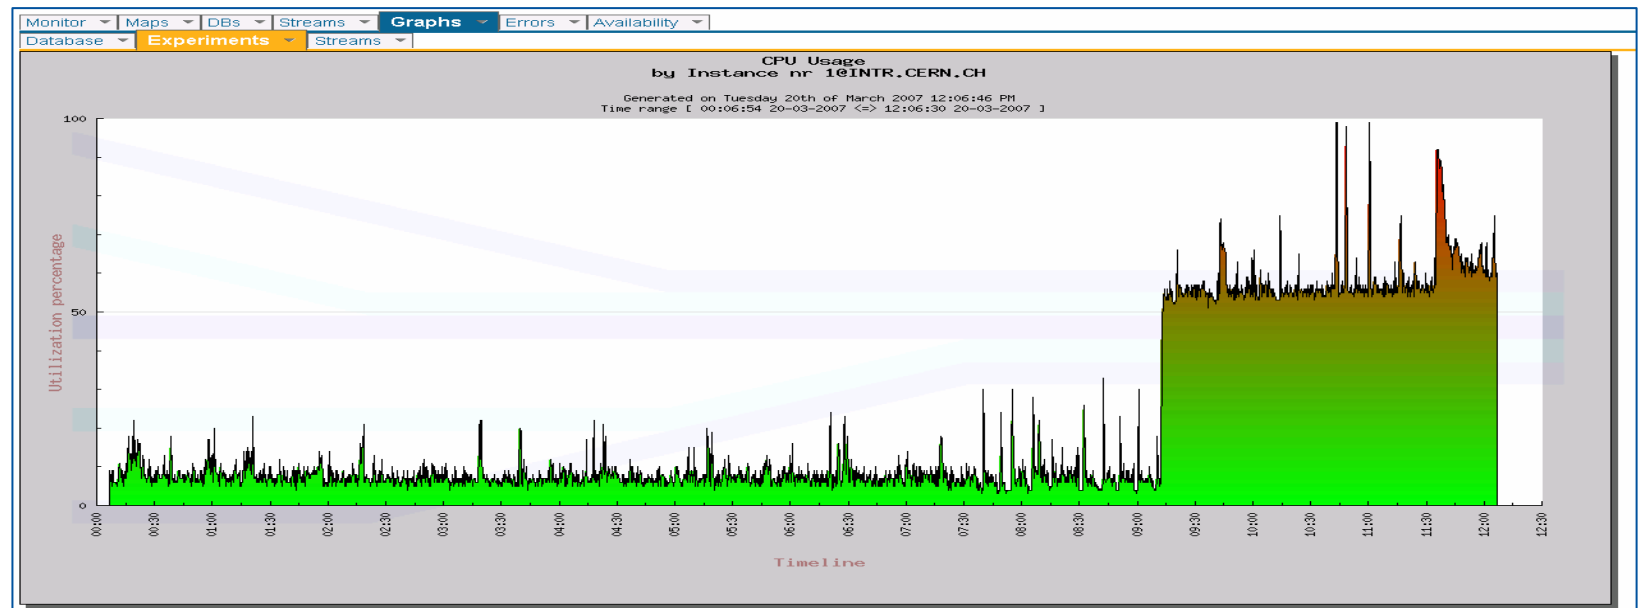

- BNL
 - installing new hardware
- PIC
 - RAC database up and running
 - first streams tests successful
- NDGF
 - single database up and running
 - first streams tests successful

- New features <http://oms3d.cern.ch:4889/streams/main.php>
 - notifications via email
 - error tab (web application)
 - list of errors that have been reported by streams processes
 - availability tab (web application)
 - percentage availability of each instance provided with availability plots.
 - new metrics (monitor)
 - Streams pool usage
 - CPU consumption
 - Physical bytes read and written
- Proposition of future features
 - weekly reports
 - other notifications via email

Errors List

Monitor	Maps	DBs	Streams	Graphs	Errors	Availability
Errors Table						
Error time	DB Name	Process Name	Process Type	State	Error Message	
08:52:22 15-03-2007	ATONR.CERN.CH	PROPAGATE_TO_INTR	PROPAGATION	DISABLED	ORA-23603: STREAMS enqueue aborted due to low SGA	
09:51:29 18-03-2007	INTR.CERN.CH	STRMADMIN_PROP_TO_TRIUMF	PROPAGATION	DISABLED	ORA-12545: Connect failed because target host or object does not exist ORA-06512: at "SYS.DBMS_AQADM_SYS", line 1087 ORA-06512: at "SYS.DBMS_AQADM_SYS", line 7627 ORA-06512: at "SYS.DBMS_AQADM_SYS", line 631 ORA-06512: at line 1	
10:00:49 18-03-2007	D3R.CERN.CH	STRMADMIN_PROPAGATE_TRIUMF	PROPAGATION	DISABLED	ORA-12545: Connect failed because target host or object does not exist ORA-06512: at "SYS.DBMS_AQADM_SYS", line 1087 ORA-06512: at "SYS.DBMS_AQADM_SYS", line 7627 ORA-06512: at "SYS.DBMS_AQADM_SYS", line 631 ORA-06512: at line 1	
19:36:44 14-03-2007	ATLDSC.CERN.CH	STRMADMIN_PROPAGATE_GRIDKA	PROPAGATION	ENABLED	ORA-12514: TNS:listener does not currently know of service requested in connect descriptor ORA-12514: TNS:listener does not currently know of service requested in connect descriptor	
20:48:33 01-03-2007	MUONCAL_GRID.UMICH.EDU	PROPAGATE_TO_INTR	PROPAGATION	DISABLED	ORA-00257: archiver error. Connect internal only, until freed. - PROPAGATION REPORTING ORA-600 [KWQPCBK179]
 - patch requested and applied
 - Bug has been reproduced – under investigation
- PROPAGATION JOBS DO NOT PROGRESS, NO ERRORS REPORTED
 - under investigation
 - related to the firewall problem?
- ORA-00600: [KWQBMCRPTS101] AFTER DROPPING THE PROPAGATION JOB
 - impact on the Split & Merge Solution
 - fixed on 11 – backport already requested
- OEMAGENT BLOCKING START_PROPAGATION
 - Andrew Bulloch will help with the investigation
