CERN Summer Internship

📅 November 24, 2016 👁 141 Views

CERN Openlab Summer Student Program is a prestigious program at CERN Geneva. This 2 months CERN Summer Internship Program is an opportunity for aspiring students to go through cutting edge research. The areas of research include Data Acquisition, Computing Platforms, Data Storage Architectures, Networks and Communication, Data Analytics etc.

CERN Summer Internship

CERN Summer Internship will provided the students an opportunity to work with latest hardware and software technologies. Moreover, this would also help them understand how advanced IT solutions are used in the area of High energy Physics. This is just not a program limited to the 2 months and interested candidates can follow-up on their research work even in their home institute.

Who can Apply for this Summer Internship

Students who are pursuing undergraduate studies in Physics, Computer Science, Engineering or Mathematics can apply for this program. Also, such students should have completed at least 3 years of undergraduate study. Masters students also can apply for the program. The interested students should be willing to work for 9 weeks from June to September in 2017. During these two months, the students will attend a series of lectures by the experts. They will also be visiting the accelerators and other facilities. In addition to these the students will also visit to external companies and carry out a project work.

Stipend & Other allowances during CERN Summer Internship

The selected students would be paid 90 CHF per day for the period they work at CERN. In addition to this CERN will also pay a Travel Allowance and Health Insurance. The students will also receive assistance to find their accommodation during their stay.

The deadline for application is 15th February 2017. The application process will start from 1st December 2016. The interested candidates can apply through the [CERN Openlabs website](#). The interested candidate should apply to summer internship program with their CV, proof of studying in an institution, a letter stating your interest in the field you are applying to.
