MTN Foundation just partnered with **Oracle** to kick off the second phase of its collaboration plan to empower up to 2,000 MTNF scholars in the areas of Java Fundamental and Oracle Database trainings.

This phase focuses on teaching database design and SQL and Java programming skills to MTN Foundation Scholars, using Oracle Academy curriculum and hosted on-line learning materials.

This program is part of the foundation's initiative to encourage Nigerian students to take interest in science and technology-related courses for the ultimate benefit of the country. The training program, which is solely online based, will run for 18 weeks with 2 lectures per week and participants are expected to log on to the online classrooms.

One of the beneficiaries of this programme, **Mufutau Akuruyejo**, who left for **Switzerland** to participate in the nine-week CERN open-lab program, is the first Nigerian to participate in this intensive program, which was made possible with the support of MTN Foundation and Oracle.

MORE FROM THIS SOURCE

The advertisement features the Konga.com logo at the top left. Below it, the name 'Dsas Ighodaro' is written in a cursive font. The central image shows a woman with long dark hair, wearing a bright yellow short-sleeved dress with a white floral brooch and matching yellow high-heeled sandals. She is sitting on a white chair. At the bottom of the image, there is a circular graphic with the word 'GOLD' in large, bold, yellow letters, and 'AFFORDABLE LUXURY' in smaller white letters below it. At the very bottom of the advertisement, there is a red button with the text 'SHOP NOW' and a white right-pointing arrow.
