NEW New phase of CERN openlab to tackle exascale IT challenges for science

The fourth phase of CERN openlab was officially launched during a meeting of its board of sponsors taking place at CERN on 8 and 9 May. CERN openlab is a unique public-private partnership between CERN and leading information technology companies HP, Intel, Oracle, Siemens, with contribution from Huawei for this new phase. Its mission is to accelerate the development of cutting-edge solutions to be used by the worldwide community working on LHC data. [more](#)
