weeks) during the period June-September 2016

You will work with some of the latest hardware and software technologies and see how advanced IT solutions are used in high energy physics. You will have the opportunity to attend a series of lectures developed for the CERN openlab Summer Students, given by IT experts on advanced CERN-related topics. Included in the programme are also visits at the CERN facilities and experiments as well as other research laboratories and companies. In this

become an entrepreneur in cutting-edge computing technologies!

A stipend of 90 CHF (approximately 80€) per day during contractual dates (generally 61 days) is sponsored by the organization and should cover accommodation and living costs during the nine-week stay. Students are covered by the CERN health and accident insurance scheme, and are offered a travel allowance on a lump sum basis.

A report on the work carried out is to be handed in at the end of the stay. And there is also the opportunity to present their work at dedicated lightning talks' events.

CONDITIONS

The applicants should have:

Bachelor or master completed (by the summer of attending) and at least three years of full-time studies at university level in **Computer Science, Engineering, Mathematics or Physics**.

APPLICATION

The application must be submitted [online](#) with the following documents attached to it:

- The applicant's CV,
- Recommendation letter(s) by university
