Rackspace (RAX +2.1%) lands another big OpenStack customer: major European research organization...

- Monday, July 1, 12:11 PM ET

Rackspace ([RAX +2.1%](#)) [lands another](#) big OpenStack customer: major European research organization CERN will rely on Rackspace to create an OpenStack-based hybrid cloud. CERN, which creates over 25PB of data annually, already uses Rackspace's public cloud services. The deal comes shortly after [Fidelity](#) tapped Rackspace to build an OpenStack-based hybrid cloud (it'll initially build a private cloud), and a few months after the company [launched an interface/API](#) for managing private clouds.
