Intel congratulates CERN for the Higgs Boson Particle's progress

Full story: Voice & Data

Intel congratulates the European Organization for Nuclear Research on the progress on the Higgs Boson particle; as scientists claim that this research is a gateway to a new era to see humanity unlock some of the universe's great mysteries, including dark matter and light-speed travel.

DAILY HOROSCOPE FOR JULY 8

Cancer

You're eminently practical and sensible today, so it's a marvellous chance to reach a decision or plan your next move. All the same, watch out for a slight tendency to err on the side of caution, or even to convince yourself that any form of risk is a complete no-no and that you should play as safe as possible. This is no time for reckless behaviour, but nor should you be scared of your own shadow.
