New format for the openlab Minor Review meetings - starting today ^[1]

Tuesday, 29 October, 2013

We inaugurate this week the new format for the monthly reviews of the CERN openlab Competence Centres.

The goal is to highlight the excellent work being done in several Groups in IT as well as in other Departments in different technology areas as part of the openlab objectives.

The first seminar in these series will take place Tuesday October 29th at 14:00 in the IT Amphitheatre and will showcase two presentations from the Database and the Storage Groups respectively on data analytics with Oracle (by [Stefano Alberto Russo](#) ^[2]) and cloud storage with Huawei Cloud Storage Appliance (by [Seppo Sakari Heikkila](#) ^[3]). The presentations will be broadcast so that you can follow from outside CERN.

Alberto Di Meglio, CERN openlab CTO
