Tim Bell ^[1]

Biography:

Tim Bell is responsible for the CERN IT Operating System and Infrastructure Group which supports Windows, Mac and Linux across the site along with large scale clouds, printing, E-mail and web services. Prior to working at CERN, Tim worked for Deutsche Bank managing private banking infrastructure in Europe and for IBM as a Unix kernel developer and deploying large scale technical computing solutions. Tim is an elected member of the OpenStack management board and a member of the OpenStack user committee.
