Georgios Bitzes ^[1]

Biography:

Georgios is currently an undergraduate student at the University of Athens, department of Informatics and Telecommunications. His interests include multi-threaded programming, artificial intelligence as well as optimization across all layers of abstraction, starting from algorithms and reaching down at the hardware level. Georgios joined openlab in July 2013 as a Technical Student, getting involved in a variety of technical activities, including benchmarks, work with profilers, vectorization and general research.
