## **Best presentations of the Summer Students Programme lightning talks' session** <sup>[1]</sup>

Thursday, 27 August, 2015

<sup>[2]</sup>

The second part of the CERN openlab summer students "Lightning Talks <sup>[3]</sup>" took place yesterday afternoon.

After much thought and careful consideration, the jury, a panel composed of CERN IT department experts, and the audience voted for their three preferred talks. According to the combined results, the three best presentations were given by:

Azqa Nadeem <sup>[4]</sup> - Evaluation and implementation of SQRL and U2F for 2FA <sup>[3]</sup>

Stavros Moiras <sup>[5]</sup> - Source Code Review Using Static Analysis Tools <sup>[3]</sup>

Mihai Patrascoiu <sup>[6]</sup> - OpenStack Manila <sup>[7]</sup>

This year's lightning talks session was marked by the variety of technical challenges and creative ideas. Therefore everyone agreed on the winner of "The Overall Best Lightning Talk 2015":

Azqa Nadeem <sup>[4]</sup> - Evaluation and implementation of SQRL and U2F for 2FA <sup>[3]</sup>

The CERN openlab team would like to warmly congratulate all the summer students who participated!
