(French: Organisation européenne pour la recherche nucléaire),

known as CERN ([/?s??n/](#); French pronunciation: [\[s??n\]](#); derived from the name "Conseil Européen pour la Recherche Nucléaire"; see History), is a European research organization that operates the largest particle physics laboratory in the world. Established in 1954, the organization is based in a northwest suburb of Geneva on the Franco-Swiss border, ([46°14'3"N 6°3'19"E](#)) and has 22 member states. Israel is the only non-European country granted full membership.
