CERN's IdeaSquare is launching a new on-line journal called CERN IdeaSquare Journal of Experimental Innovation or CIJ. The new journal will provide an open platform and a data depository for socio-economic innovation research.

"At CERN we experiment with new ideas all the time, and IdeaSquare is a key part of that drive towards innovation," says Charlotte Warakaulle, Director for International Relations at CERN. "Here, we bring together people from the worlds of scientific instruments-building and societal action to find practical solutions to challenges on the ground, in humanitarian work and in many other areas. It is at an innovative process with innovative outcomes," she adds.
