By joining the programme, you will work on ambitious IT projects using some of the latest hardware and software technologies, and see how advanced IT solutions are used in high-energy physics. In addition, you will have the opportunity to attend a series of lectures [3] developed for the CERN openlab summer students, given by IT experts on advanced CERN-related topics. Included in the programme are also visits [4] at the CERN facilities and experiments, as well as other research laboratories and companies.
