Participation in the procurement activities of the IT Department. You will be involved in the procurement of hundreds of servers and tens of petabytes of disk storage yearly for the Worldwide LHC Computing Grid Tier-0 centre at CERN as well as for the many services run by other groups in CERN IT and its associated remote hosting centre at the Wigner institute in Budapest, Hungary. Testing and integration of new technologies such as the hardware available through the Open Compute Project (OCP, <http://www.opencompute.org> ^[2]) will be part of your activities.
