My experience as an Openlab Summer Student at CERN ?

Part 1 ^[1]

Date published:

1 May 2017

dinikasaxena.wordpress.com

This is my third and final post in a series of blogs I have written to help students understand, apply to, and enjoy the Summer Student Programmes at CERN. In my first post in this series, I gave a short (sort of) description of the different Summer Student programmes at CERN and in the second one, I discussed some tips that I think might help students submit a good application and enjoy their time there (if selected). So, if you're keen on learning about either of these subjects, check out the links. Also, I recently found out an excellent blog maintained by an Openlab Summer Student, Fatima Noor. It is a goldmine! Alright, let's get started. I can't promise that it will be a short post.
