Burning at a scorching 103°F, etiolated from my body's aversion to any kind of food that I was feeding it, trying hard to tame my running nose, I sat on my office chair on one of those Sundays. The weather was one of a kind outside ? a delicious sun co-existing with a romantic breeze. Geographically, I was sitting very close to the border of Switzerland and France ? countries where inhabitants are accustomed to hiking, running or doing anything that helps their spirit dance along with nature, especially during the weekends.
