Press Release: CERN openlab tackles ICT challenges of High-Luminosity LHC ^[1]

Date published:

21 Sep 2017

Outlet:

physics.uoc.gr

CERN openlab has published a white paper identifying the major ICT challenges that face CERN, the European Organization for Nuclear Research, ^[2] and other "big science" projects in the coming years.

CERN is home to the Large Hadron Collider (LHC), the world's most powerful particle accelerator. The complexity of the scientific instruments at the laboratory throw up extreme ICT challenges, and make it an ideal environment for carrying out joint R&D projects and testing with industry.
