CERN openlab Internet of Things Workshop ? follow our live webcast ^[1]

Monday, 6 November, 2017

CERN openlab is holding a workshop on the ?Internet of Things? (IoT) on Tuesday 7 November.

Speakers from academia and industry will present the current state of key technologies used to build ?smart? environments, such as smart buildings, campuses, and even cities. Technologies related to smart mobility will also be discussed, as well as how these technologies are likely to impact on our daily lives.

Speakers from CERN will present opportunities for how the Organization could potentially make use of IoT technologies, and will describe several ongoing prototype projects.

Follow the event live via webcast here: <https://webcast.web.cern.ch/event/i669690> ^[2]. The full timetable for the day is available here:

<https://indico.cern.ch/event/669690/timetable/#20171107> ^[3].
