New phase of CERN openlab to tackle exascale IT challenges for science ^[1]

Date published:

10 May 2012

Outlet:

Foundation for Free Education

"... CERN openlab is a unique public-private partnership between CERN and leading information technology companies HP, Intel, Oracle, Siemens, with contribution from Huawei for this new phase. Its mission is to accelerate the development of cutting-edge solutions to be used by the worldwide community working on LHC data."
