

CERN openlab Summer Student Program 2013

Alberto Di Meglio

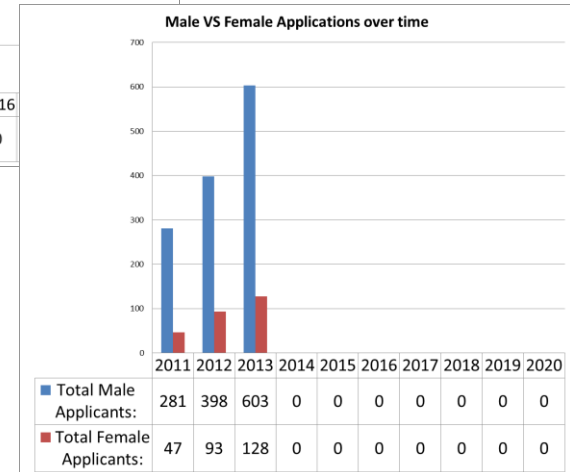

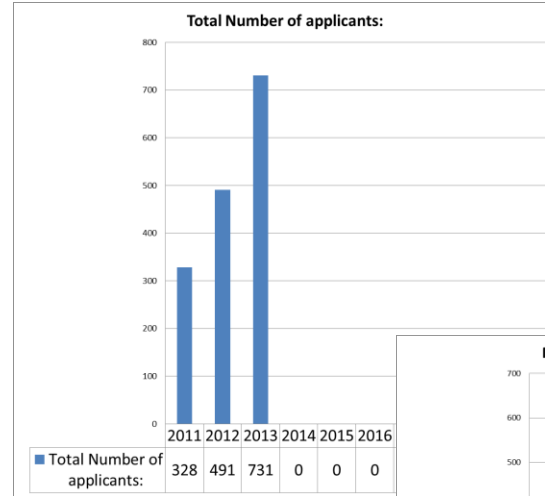

CERN openlab CTO office

CERNopenlab

- 731 applications from 77 countries (up 48%)
- 22 selected students from 13 countries (up 46%)
- 18 men (81%) and 4 women (9%)
- Openlab Program now one of the three official CERN Summer Student Programs (same admin and financial treatment)

Largest program so far

■ 13 technical lectures from CERN experts and partners and EMBL-EBI

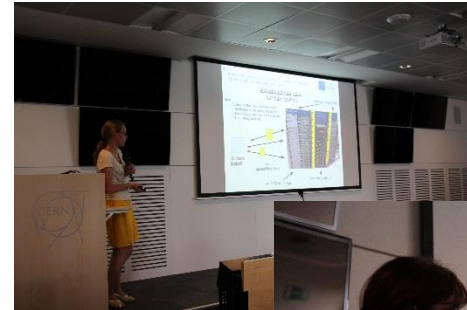

■ Lectures webcast and recorded

■ Visits to

- CERN facilities
- ILL in Grenoble
- EPFL and Blue Brain project in Lausanne
- Open Systems, ETH and Google in Zurich

■ A **Lightening Talk** session where all students presented their projects in front of IT experts and colleagues

Lectures and visits

Program Outcome

- 22 project reports on very diverse IT-related topics
- All reports will be made available on the CERN openlab web site and the CERN document repository (after checking for any confidentiality issue)
- Very high satisfaction rating
- A promotional **video** for further dissemination
