Geneva, Switzerland CERN (organization) Internships Personal Question

If I am going to stay in Geneva for an internship at CERN, where can I stay for the period of the internship?

1 Answer

Dima Petruk, OpenLab Summer Student 2016

Written Jan 20

You didn't mention it, but if you are planning to participate in **OpenLab** Internship programme - they have suggested place (hotel) to stay for all **people** from this programme. And I would suggest taking it :)

If it is any other programme, you can:

1. Live at [CERN Hostel](#)
2. Find private offers on the CERN Market: [CERN Market](#) (you can log in with your social networks account)

I once had a very young student in my first year university physics class. I'll call him Bob (not his real name). One day his mother came to my office with Bob and asked me how he was doing in my course. I turned to him and asked, "Bob, how are you doing?" He was embarrassed, of course, but I thought I saw a little smile.
