MTN Nigeria, Oracle collaborate to boost ICT skills

Tuesday 19 May 2015 | 14:25 CET | News

2

The MTN Nigeria Foundation (MTNF) has joined Oracle to work together in the cloud and in the data centre, to give ICT training to selected MTNF scholars, The Punch reported. There will be a bursary funded by Oracle for one student to attend the CERN openlab Summer School in Switzerland, and there are plans to train up to 2,000 MTNF scholars in database design and SQL and Java programming skills.

The programme is expected to encourage Nigerian students to take interest in science and technology-related courses for the ultimate benefit of the country. CERN openlab is a public-private partnership

between CERN and leading ICT companies. Its mission is to accelerate the development of cutting-edge solutions to be used by the worldwide LHC (large hadron collider) community.
