What's next for Cern's Large Hadron Collider? (http://article.wn.com/view/2015/03/22/Whats_next_for_Cern_s_Large_Hadron_Collider/)

The new and improved Large Hadron Collider (LHC) – the world's most powerful particle accelerator – will be back in business this month, at almost twice the energy of its initial three-year run. Cern physicist Dave Charlton gives insight into what to expect. swissinfo.ch: The LHC is just coming out of a long sleep after an important...

Here's The Dance Opera That's Being Filmed Inside CERN's Large Hadron Collider (http://article.wn.com/view/2015/03/09/Heres_The_Dance_Opera_Thats_Being_Filmed_Inside_CERNs_Large_/)

If Neil deGrasse Tyson's version of "Cosmos" hasn't convinced you of the beautiful drama hidden within the scientific community, perhaps this dance opera -- filmed inside CERN's Large Hadron Collider (LHC) in Switzerland -- will twist your arm in the right direction. The gorgeous film project, titled "Symmetry," combines the best parts of opera and dance with the titillating...

Cern's Large Hadron Collider turns back on: scientists hope to explain dark matter and mysteries ...

(http://article.wn.com/view/2015/03/12/Cerns_Large_Hadron_Collider_turns_back_on_scientists_hope_to/)

They are calling it "season 2": they hope to see the first glimmer of light at the end of a very dark tunnel, and in the process explain one of the biggest mysteries of the Universe – the nature of dark matter. The world's most powerful sub-atomic particle accelerator – the Large Hadron Collider at the European Organisation for Nuclear Research (Cern) in Geneva – has been given...
