

CERN & ProCurve Networking

15 petabytes of data

And a network that can handle it

“CERN uses ProCurve switches because we generate a colossal amount of data, making dependability a top priority.”

—David Foster, Communication Systems Group Leader, CERN

CERN has joined with ProCurve to build their network based on high-performance security, reliability and flexibility, along with a lifetime warranty.* From the world's largest applications, to a company-wide email, just think what ProCurve could do for your network.

Get a closer look at CERN and the world's biggest physics experiment. Visit (insert url).

*Lifetime warranty applies to all ProCurve products, excluding the 9300m and 9400sl series routing switches, 8100fl series interconnect fabric switches and Secure Access 700wl series, which have a one-year warranty with extensions available.
