MTNF, Oracle To Train 2,000 Students With ICT Skills

Chima Akwaja — May 19, 2015 4:54 am | 0 Comments

The corporate social investment vehicle of MTN, MTN Foundation (MTNF), has joined Oracle to give further ICT training to select MTNF scholars.

The collaboration will see two projects – a bursary funded by Oracle for one student to attend the CERN openlab Summer School in Switzerland, and plans to train up to 2,000 MTNF scholars in database design and SQL and Java programming skills – come to fruition.

The corporate service executive, MTN Nigeria, Akinwale Goodluck, said the collaboration will see an MTNF scholar, Mufutau Akuruyejo, leave for Switzerland to participate in the nine-week CERN openlab programme.

“He will be the first Nigerian to participate in this intensive programme which would not have been possible without Oracle’s support,” he said.

He said the CERN openlab is a unique public-private partnership between the CERN and leading ICT companies to accelerate the development of cutting-edge solutions to be used by the worldwide large hadron collider (LHC) community. The programme is expected to encourage Nigerian students to take interest in science and technology-related courses for the ultimate benefit of the country.
